

SAFETY DATA SHEET

ISSUED DATE: 1st January 2017

Revision Date 19-Oct- 2016

Version 1

Pigment Various Colours

PPE-XXXXX

1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Details of Manufacturer or importer

Fiberglass (A/Asia) Sales Pty. Ltd.
2 Lincoln Street,
Minto NSW 2566

For further information, please contact

Contact Point Phone: (02) 9820 1144

Email: info@fiberglass-sales.com.au

Emergency Phone: (02) 9820 1144 (Business Hours)

Product Name:	Polyester Pigment
Product Code:	PPE-XXXXX
UN Number:	None allocated
CAS Number:	Not available
Dangerous Goods Class:	Not classified as dangerous goods
Hazchem code:	Not applicable
Poisons schedule number:	None allocated

2. HAZARD IDENTIFICATION

Not classified as hazardous according to the criteria of Safe Work Australia

GHS Classification

Not a dangerous substance or mixture according to the Globally Harmonised System (GHS)

GHS Label Elements Not applicable

SIGNAL WORD Not applicable

Hazard statement(s) Not Applicable

Precautionary statement(s) Prevention

P101 If medical advice is needed, have product container or label at hand.

P102 Keep out of reach of children.

P103 Read label before use.

Precautionary statement(s) Response Not Applicable

Precautionary statement(s) Storage Not Applicable

Precautionary statement(s) Disposal Not Applicable

3.COMPOSITION INFORMATION ON INGREDIENTS

Substance Name	Proportion	CAS Number Polyester resin
	40-90%	N/A
Additives (proprietary)	<2%	N/A
Organic/inorganic pigments non-hazardous - balance	N/A	N/A

All the constituents of this material are listed on the Australian Inventory of Chemical Substances (AICS) and the New Zealand Inventory of Chemicals (NZIoC).

4.FIRST AID MEASURES

Description of first aid measures

Eye Contact

If this product comes in contact with the eyes:

Wash out immediately with fresh running water.

Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.

Seek medical attention without delay; if pain persists or recurs seek medical attention.

Removal of contact lenses after an eye injury should only be undertaken by skilled personnel.

Skin Contact

If skin contact occurs:

Immediately remove all contaminated clothing, including footwear.

Flush skin and hair with running water (and soap if available).

Seek medical attention in event of irritation.

Inhalation

If fumes, aerosols or combustion products are inhaled remove from contaminated area. Other measures are usually unnecessary.

Ingestion

If swallowed do NOT induce vomiting.

If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration. Observe the patient carefully.

Never give liquid to a person showing signs of being sleepy or with reduced awareness; i.e. becoming unconscious.

Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably drink.

Seek medical advice.

Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

5. FIRE FIGHTING MEASURES

Combustion products: Carbon oxides and traces of incompletely burned carbon compounds.

Extinguishing media: Carbon dioxide. Water can be used to cool fire exposed containers. Dry chemical (BC-powder). Foam.

Fire-fighting procedure: Self-contained breathing apparatus and protective clothing should be worn

Explosive hazards: None

Material to avoid: oxidizing materials can cause a reaction. Flammability: Not flammable under condition of use

6. ACCIDENTAL RELEASE MEASURES

Material may be slippery when spilt. Walk cautiously, ventilate area. Wear protective equipment to prevent skin and eye contact as outlined in this MSDS. Bund area using sand or other inert material to contain spill. Use inert absorbent material, collect and store in properly labelled containers.
Dispose in accordance with local regulations. Final cleaning may require the use of steam, solvents and detergents.

7. HANDLING AND STORAGE

Store in a cool, well ventilated area and out of direct sunlight. Store away from sources of heat or ignition. Store away from acids and oxidizing agents. No special storage requirements necessary. Wash thoroughly with soap and water after handling

8. EXPOSURE CONTROL/PERSONAL PROTECTION

Exposure standards: none established

Engineering control: Use in a well-ventilated area, away from the naked flame, keep container closed.

Personal protection:	Respirator:	Not required
	Gloves:	No specific type
	Clothing:	No special type
	Eye:	Use safety glasses

Flammability: While the product is not flammable under normal conditions of use, general care must be observed.

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Physical state	Viscous Coloured Liquid
Relative density (Water = 1)	1.00 – 2.2kg/L
Odour	Ester
Partition coefficient n-octanol / water	Not Available
Odour threshold	Not Available
Auto-ignition temperature (°C)	Not Available
pH (as supplied)	Not Available
Decomposition temperature	Not Available
Melting point / freezing point (°C)	Not Available
Viscosity (cSt)	Paste
Initial boiling point and boiling range (°C)	Not Available
Molecular weight (g/mol)	Not Available
Flash point (°C)	>60°C
Taste	Not Available
Evaporation rate	Not Available
Explosive properties	Not Available
Flammability	Not Available
Oxidising properties	Not Available
Upper Explosive Limit (%)	Not Available
Surface Tension (dyn/cm or mN/m)	Not Available
Lower Explosive Limit (%)	Not Available

Volatile Component (%vol)	Not Available
Vapour pressure (kPa)	Not Available
Gas group	Not Available
Solubility in water (g/L)	Not Available
pH as a solution (1%)	Not Available
Vapour density (Air = 1)	Not Available
VOC g/L	Not Available

10. STABILITY AND REACTIVITY

STABILITY

Stable under normal conditions of use

HAZARDOUS DECOMPOSITION PRODUCTS

Carbon oxides and incompletely burnt carbon compounds.

HAZARDOUS POLYMERISATION

Does not occur

INCOMPATIBILITIES

None known

CONDITIONS TO AVOID

Keep away from acids and oxidizing compounds. Keep away from heat and direct sunlight.

11. TOXICOLOGICAL INFORMATION

There is no toxicological information for this product.

12. ECOLOGICAL INFORMATION

Ecotoxicity:	Not Available
Biodegradability:	Not readily biodegradable
Animal toxicity:	Not known
Persistent in soil/water:	Not known

This product may be environmentally hazardous, avoid contaminating drains, waterways and sewers.

13. DISPOSAL CONSIDERATIONS

Refer to local appropriate authority in your state. Dispose of material through a licensed waste contractor.

14. TRANSPORT INFORMATION

UN Number:	None allocated
Dangerous goods class:	Not classified as dangerous goods
Packaging group:	None allocated
Correct shipping name:	Polyester-based colourant
Reactivity:	Non-reactive
Type of container:	Non specific

15. REGULATORY INFORMATION

Safety, health and environmental regulations / legislation specific for the substance or mixture

Polyester Resin and all other ingredients are found on the following regulatory lists:

Australia Inventory of Chemical Substances (AICS)

National Inventory	Status
Australia - AICS	Y
Canada - DSL	Y
Canada - NDSL	N (polyester resin)
China - IECSC	Y
Europe - EINEC / ELINCS / NLP	Y
Japan - ENCS	Y
Korea - KECI	Y
New Zealand - NZIoC	Y
Philippines - PICCS	Y
USA - TSCA	Y

Legend:

Y = All ingredients are on the inventory

N = Not determined or one or more ingredients are not on the inventory and are not exempt from listing (see specific ingredients in brackets)

16. OTHER INFORMATION

The SDS is a Hazard Communication tool and should be used to assist in the Risk Assessment. Many factors determine whether the reported Hazards are Risks in the workplace or other settings. Risks may be determined by reference to Exposures Scenarios. Scale of use, frequency of use and current or available engineering controls must be considered.
